

JOB SPECIFICATION

Job title	Chief Technology Officer, Rinicare Ltd		
Reports to	Managing Director Responsible to the shareholders and other stakeholders in Rinicare for the success of the company.	Date	December 2020

About us

Rinicare Ltd is a Cheshire, UK based private enterprise that designs innovative, hospital grade, medically certified technologies aimed at both improving patient outcomes and alleviating pressure on healthcare budgets.

Position Summary

The Chief Technology Officer will lead all company technology and technological resources. S/he will be accountable for sound technical leadership and technical development in all aspects of the business. The CTO will communicate with employees, shareholders, other stakeholders, and customers to ensure our company's technologies are used appropriately. Working directly under the Managing Director the CTO will act as both a technology and business expert and must be well-versed in current medical technological trends and familiar with a variety of business concepts.

Responsibilities and duties

- Make executive technology decisions on behalf of the company.
- Develop technical aspects of the company's strategy to ensure alignment with its business goals.
- Creating and own project plans and timelines for the development and deployment of all technological services.
- Continually improving well supported products with high clinical value.
- Monitor KPIs and IT budgets to assess technological performance.
- Build quality assurance and data protection processes, ensuring all technology practices adhere to regulatory standards.
- Discover and implement new technologies that yield competitive advantage.
- Supervise system infrastructure to ensure functionality and efficiency.
- Use stakeholders' feedback to inform necessary improvements and adjustments to technology.
- Communicate technology strategy to partners and investors.

Knowledge, skills and experience

- Proven experience as a CTO or similar senior leadership role.
- BSc/BA in Computer Science, Engineering or a related field; MBA or other relevant graduate degree is a plus.
- In-depth knowledge and understanding of the medical technology industry.
- Sound knowledge of technological trends to build strategy. Keeps abreast of new medical technologies and innovations.
- Strong influencing skills with different stakeholders. Proven ability to interact and communicate with Senior Executives and Investors.

- Experience of managing a budget, ensuring these are carefully monitored and managed.
- Understanding of funding and valuation mechanisms, business plans, marketing and legal.
- Ability to conduct technological analyses and research.
- Ability to give presentations to a wide spectrum of audiences, both internally and externally.
- Excellent leadership and organizational abilities with team orientation; flexible in personal interactions at all levels of the company ensuring good planning, good communication and attention to detail.
- Strategic thinking.
- Problem-solving aptitude.
- Demonstrates a continuous improvement mindset
- Must understand, follow and comply with regulatory requirements as applicable to various processes. An understanding of ISO Standards (particularly 13485, 62304 and 14971) is required.
